Maple Systems industrial PCs

[Print](#) [Email](#) [Tweet](#) [Share](#) [G+](#) [in Share](#)

Powerful, compact, flexible and robust industrial PCs feature bright, colorful displays, faster processors and a smooth aluminum bezel. The series comes with a Windows Embedded Standard 7 operating system, and can be paired with user's choice of configuration software. These rugged units are IP65-rated to withstand harsh environments. Series features include 7-15-in. resistive touchscreen; flat bezel design; solid-aluminum, diecast chassis; 1.6-GHz and up dual-core processors; USB, Ethernet and serial communications; fanless design; IP65 (front panel compliant), CE, UL and FCC Class A certifications; Microsoft Windows Embedded Standard 7 operating system; -20 to 60 °C extended-temperature option; Panel and VESA 75 or VESA 100 compatible mount; ability to be configured to communicate with most PLCs and motion controllers for easy system integration.
